The student may be asked to change or make modification, if possible. Otherwise, a student may be given something appropriate to wear for that day. See Board Policy 502.1

CARE OF SCHOOL PROPERTY/VANDALISM - Students are expected to treat school property with care and respect. Students found to have deliberately damaged or destroyed school property will be required to reimburse the school district, and may be subject to additional discipline. INFORMATION FROM THE SCHOOL NURSE...

Colds and the flu are most common during the winter months when people are in close quarters with poor outdoor air circulation. Colds and flu are not caused from cold weather, getting wet or chilled, or becoming overheated. These things, along with stress, allergies, poor nutrition, and fatigue from lack of sleep can make one more susceptible to viruses that cause colds and flu. We can increase our immunity to colds and flu by washing our hands regularly, eating diets high in fiber on a daily basis, avoiding extreme fatigue, controlling emotional stress, maintaining good personal hygiene, and avoiding cold, wet weather without adequate clothing. The outside, fresh air is good for us along with the exercise. We all need a break from the dry, un-circulated inside air. Children will be allowed to stay in with a note from their parents/guardians. However, a note from a physician or consultation with our school nurse will be needed for any child who needs to stay in for more than one day. If your child has a temperature of 100 degrees Fahrenheit or higher they should not be in school. Children need to be fever free for 24 hours before returning to school.

WEATHER/RECESS INFORMATION

Indoor recess for the entire school is based on temperature, wind chill, current outdoor elements, etc. Please be assured this decision is made based on the safety and health of all children. Please contact the principal with any questions or concerns.

MEDICATIONS...

We do not encourage medication to be given at school. Most medications can be arranged to be given at home. If the child is to receive a medication three times a day, one dose could be given before the child leaves home, one dose right after he comes home from school and one dose before bedtime. It would be best to ask your physician to see if this routine would be possible. ONLY when this is not possible will medication be administered at school. Then the following steps should be taken:

1. Send medication in the prescription bottle only. The bottle MUST contain the child's name (not the name of brothers or sisters), the name of the medication, dosage and number of times to be given, the prescription number and the other usual information on a prescription.
2. No over the counter medication such as aspirins, cough medicine, cold tablets will be given without consent of a parent. Do not send any medication in an envelope or plastic bag as it will not be given at school without proper identification.
3. If medication MUST be given at school, you must have a form completed before the medication will be given, OR a permission note that is dated with the name of your child, name of the medication, the time to be given and your signature. You will need one of these for each medication. If the above steps are not followed, the medication will not be given.
4. If you do not want medication such as Tylenol or Ibuprofen administered to your child at school, please send the school a written notice to keep on file.

GENERAL INFORMATION

ENTERANCE /ADMISSION REQUIREMENTS - Children wishing to enroll in kindergarten must be at least five (5) years of age on or before the fifteenth day of September of the year in which they wish to enroll. A child wishing to enroll must present evidence of age in the form of a birth certificate or other comparable evidence before that child may enroll. It will be at the discretion of the superintendent or the superintendent's designee to determine what is satisfactory evidence for proof of age. Prior to enrollment, the child must provide the administration with a completed health and immunization certificate. Such certificates may be obtained from the school office.

TRANSFERS IN / OUT OF THE DISTRICT - Students who transfer into the district must meet the same requirements as those students who initially enroll in the district. This includes age and immunization requirements. If possible, the student must provide the district with proof of the student's grade level and a copy of the student's permanent records from the student's prior school district. If the student is unable to provide the superintendent with proof of the student's grade level or permanent records, the superintendent will make the grade level determination.

RELEASE DURING SCHOOL HOURS - Students will be allowed to leave school grounds during school hours only with prior authorization from their parents. Approved reasons for a student leaving school during the school day include illness, family emergencies, medical appointments, religious instruction, classes off school grounds, employment for which the student has been issued a work permit, and other reasons approved by the administration.

ATTENDANCE/ABSENCES - It is the educational philosophy of the Rock Valley Community School District that regular attendance by all students at school is essential and cannot be duplicated by other methods. Students are unable to obtain the maximum opportunities from the educational program offered without attendance at scheduled classes and activities. Consequently, the Board of Directors, the Administrators and the Staff of the Rock Valley Community School District expect that students shall be in attendance at scheduled classes and activities for one-hundred and seventy-eight (178) days per academic year.

The only exception to the attendance rule of one-hundred and seventy-eight (178) days would be a bona fide emergency, such as illness of the student or a death or serious illness in the immediate family. Two other reasons for which an excused absence may be granted shall be authorized religious holidays and school-sponsored or approved activities. All absences must be recognized and excused by the principal. At the discretion of the principal, a physician's note verifying the illness and the necessity for the absence from school may be required. For the purposes of this regulation, immediate family shall include mother, father, sibling, step-mother, step-father, step-sibling, Grandparents, aunts, uncles or any other adult residing in the immediate household.

If a student knows in advance that he/she will be missing (i.e.: family related activities, state tournaments) he/she will be expected to bring notification from home and complete the work before leaving. Students who fail to follow this policy will be subject to making up all time missed plus complete all make-up work. Students whose absences are approved shall make up work missed and receive full credit for the missed school work, provided the proper procedures have been followed. It shall be the responsibilities of the student to initiate a procedure with the student's teacher to complete the work missed.

DANGEROUS WEAPONS (Board Policy 502.6) – School district facilities are not an appropriate place for weapons or dangerous objects. Weapons and other dangerous objects shall be confiscated from students and others who bring them onto the school district property, and will be reported to the parents of students found to possess them. Students bringing a dangerous weapon to school or knowingly possessing a dangerous weapon shall be expelled for not less than twelve months. The superintendent shall have the authority to recommend this expulsion be modified for a student on a case-by-case basis. A “dangerous weapon” is any instrument or device designed primarily for use in inflicting death or injury upon a human being or animal, and which is capable of inflicting death upon a human being when used in the manner for which it was designed.

STUDENT FEE WAIVER & REDUCTION PROCEDURES – The Board recognizes that while certain fees charged students are appropriate and authorized, certain students and their families are not financially able to pay the fees. The school district will grant either full or partial waivers depending upon the circumstances and the student or student’s parents’ ability to meet the financial criteria. Students whose families meet the income guidelines for free and reduced price meals under the Child Nutrition program, Family Investment Program (FIP), Supplemental Security Income (SSI), or transportation assistance under open enrollment, who are in foster care, or are homeless are eligible to have their student fees waived or partially waived. Application forms are provided at registration, or at the district offices. Applications may be made at any time, but must be renewed annually.

FIELD TRIPS - The principal must give prior authorization for all field trips and/or excursions. Written parental permission will be required prior to the student’s participation in a field trip or excursion outside of the school district.

REPORTING SYSTEM - A system of student reporting practices has been established by the Board of Directors to inform parents of the progress made by their children, to bring parents into closer understanding of the work of the school, to record for pupils their growth or achievement, to assist pupils in evaluating their growth or achievement, and to assist the pupil, his/her parents, and the school in working cooperatively for the welfare of the pupil. The school reporting periods are trimesters. Report cards will be sent home each trimester and need to be returned to school. There will be individual parent-teacher conferences after the first and second trimester.

VIDEO TAPING STATEMENT - As part of teacher professional development, classrooms may be videotaped throughout the school year. The purpose of these video sessions will be to work on professional growth as teachers and to build a video library of teaching sessions to use as examples for future and current teachers. These video sessions will not be used in any way for the purposes of student progress or student discipline (unless unlawful activity is evident). By signing the handbook you are granting permission to the district to record classroom sessions while your child is in attendance.

INSPECTIONS AND SEARCHES (Board Policy 502.5, 502.8) - Although school lockers are temporarily assigned to individual students, they remain the property of the school district at all times. The school district has reasonable and valid interests in insuring that lockers are properly maintained. For this reason, a periodic inspection of lockers is permissible to check for cleanliness and vandalism. Periodic inspections of all or a random selection of lockers may be conducted by school officials.

COMMUNICABLE DISEASES (Board Policy 507.3) - Students with a communicable disease will be allowed to attend school as long as they are physically able to do so and so long as their presence does not create a substantial risk of transmission of the illness or other harm to the students or the employees. The term "communicable disease" means an infectious or contagious disease spread from person to person, as defined by the State Department of Health. Once the administration, in conjunction with the school nurse, decides that the student's condition poses a health threat to other students, the student will be excluded from school for the duration of the period of contagion. The health risk to an immune-depressed student attending school shall be determined by their personal physician. The health risk to others in the school environment from the presence of a student with a communicable disease shall be determined on a case by case review/study by public health officials. Since there may be greater risks of transmission of a communicable disease for some persons with certain conditions than for other persons infected with the same disease, these special conditions, the risk of transmission of the disease, the effect upon the educational program, the effect upon the student and other factors deemed relevant by public health officials or the superintendent shall be considered in assessing the student's continued attendance at school. The superintendent may require medical evidence that students with a communicable disease are able to attend school. In order to prevent the spread of communicable diseases, parents should use their good judgment in keeping sick children home from school. When the administration has knowledge of the presence of a communicable disease, the State Department of Health may be notified.

ILLNESS AND INJURY (Board Policy 507.4) - If a student becomes ill or is injured at school, the student's parents will be notified as soon as possible. Emergency or minor first aid may be administered if a person competent to do so is available. This would include administration of medications such as Tylenol, ibuprofen, cough drops and antacids, wound dressings, or applying topical ointment for itching. In any event, ill or injured students will be turned over to the care of the student's parents or qualified medical personnel as quickly as possible. Every year parents will be asked to complete an emergency medical form providing necessary information to be used in the case of an illness or injury. Injuries shall be reported and within 24 hours a "Preliminary Accident Report" will be filed in the principal's office.

BUS RIDING - The Rock Valley Community School District Board of Education has authorized the use of video cameras on school district buses. The video cameras will be used to monitor student behavior to maintain order on the school buses, in an effort to maintain a safe environment. Students and parents are hereby notified that the content of the videotapes may be used in a student disciplinary proceeding. The content of the videotapes may be considered confidential student records if a specific incident occurs and will be retained with other student records. Videotapes will only be retained if necessary for use in a student disciplinary proceeding or other matter as determined necessary by the administration. Parents may request to view videotapes of their child if the videotapes are used in a disciplinary proceeding involving their child.

The district will ask the individual making the report to do the following:

- write down exactly what happened
- what, when and where it happened;

- exactly what was said or what the harasser did;
- witnesses to the harassment;
- how the student felt;
- how the harasser responded.

SEXUAL HARASSMENT - Sexual harassment may include unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature. Harassment on the basis of race, national origin, marital status, color, creed, religion, gender, age, disability, sexual orientation, gender identity, or socioeconomic status includes conduct of a verbal or physical nature that is designed to embarrass, distress, agitate, disturb or trouble when:

- Submission to such conduct is made either explicitly or implicitly a term or condition of the student's participation in school programs or activities;
- Submission to or rejection of such conduct by a student is used as the basis for decisions affecting the student;
- Such conduct has the purpose or effect of unreasonably interfering with a student's performance or creating an intimidating or hostile working or learning environment.

Sexual harassment includes, but it not limited to:

- Verbal, physical or written harassment or abuse.
- Pressure for sexual activity.
- Repeated remarks to a person with sexual or demeaning implications.
- Suggesting or demanding sexual involvement, accompanied by implied or explicit threats.

Upon receipt of a written or verbal report, an Administrator shall be responsible for reasonably and promptly conducting an investigation to determine whether an alleged act constitutes a violation of this policy. The investigation may consist of interviews with individuals named in the report and any others who may have knowledge of the alleged incident. In addition, the Administrator may take immediate steps to protect students and employees pending completion of an investigation. The District prohibits retaliation against any person, who, in good faith, makes a report of alleged bullying/harassment, or testifies, assists, or participates in any investigation related to a report of bullying/harassment.

These policies are in effect while students are on property within the jurisdiction of the board; while students are in school-owned or school-operated vehicles; while students are attending or engaged in school-sponsored activities; and while students are away from school grounds if the misconduct directly affects the good order, efficient management and welfare of the school district. The school district has the authority to report students violating this rule to law enforcement officials.

Any individual found to have violated this policy will be subject to discipline consistent with district policy. The District will take action it deems necessary and appropriate, up to and including expulsion, dismissal or appropriate sanction determined and imposed by the Administration or the Board.

FERPA NOTICE

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the school receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the District to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

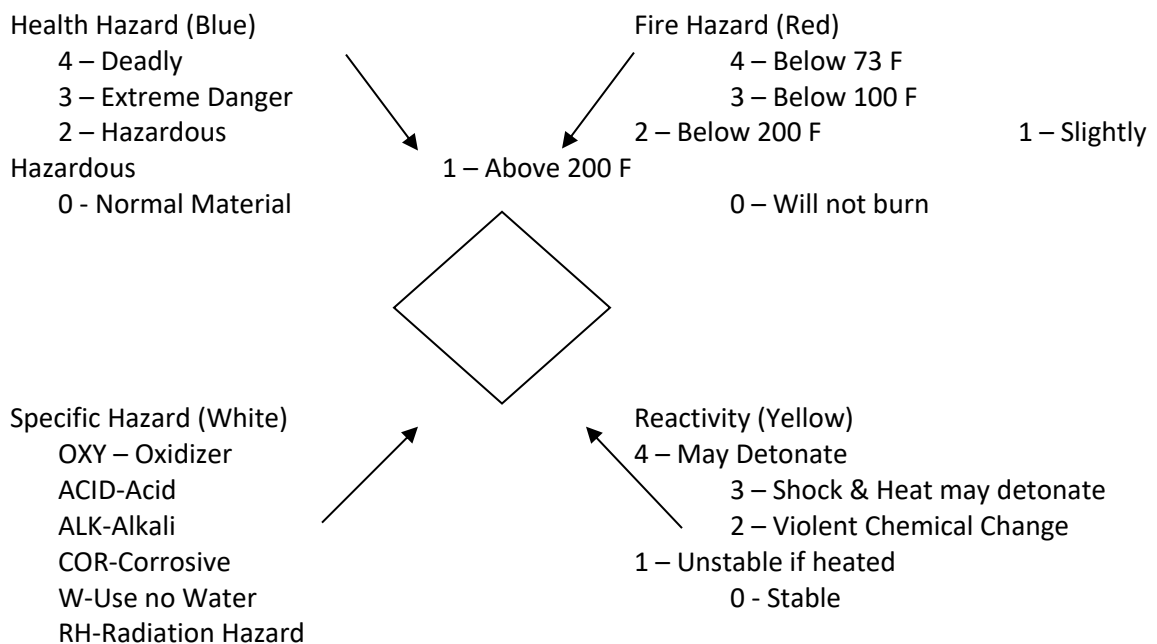

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the [School] to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

DRUG FREE WORK PLACE: The Rock Valley Board of Education has adopted a policy related to maintaining a drug free work place. All employees are informed about the dangers of drug abuse in the work place. Employees are also made aware of available drug counseling, rehabilitation, and employee assistance programs, and penalties that may be imposed upon employees for drug abuse violations occurring in the work place.

INVESTIGATORS FOR ALLEGATIONS OF ABUSE OF STUDENTS: The Iowa Legislature has required all schools in the State of Iowa to adopt a uniform procedure for investigating allegations of abuse of students. In response to a statutory directive, the Department of Education, in consultation with the Department of Human Services, has established administrative rules and a Model Policy for adoption by public school boards and authorities in charge of nonpublic schools. Level I Investigator; Stephanie Groeneweg (712) 476-2701.

RIGHT TO KNOW LAW: Hazardous Chemicals in Our Buildings: Every school district has been required since 1986 to have a written program, addressing components related to the use and storage of hazardous chemicals. These components are used to raise the public awareness of workers, employees and students about hazardous chemicals in the work place, and for emergency response personnel in an emergency. All areas where hazardous chemicals are stored are posted with signs which will indicate the type of hazard that is present. These signs are diamond shaped with four different colored divisions, each division representing a particular hazard. A number (0-4) placed within each of the divisions indicates the degree of the hazard. The higher the number the greater the hazard. Following is an example of a sign, which explains each division.

ASBESTOS: Asbestos has been an issue of concern for many years. The Asbestos Hazard Emergency Response Act of 1986 (referred to as AHERA) requires schools to determine the extent of asbestos containing materials in their building. It is also mandated that each school district formulates an asbestos management plan for the identified asbestos in each building. This plan includes procedures for training employees in using precaution designed to minimize the disturbance of the asbestos that remains in our buildings and plans for regular surveillance of that asbestos. The Rock Valley Community School District has developed an asbestos management plan, and conducts regular six-month inspections, which are available for review. If you wish to review these plans contact Superintendent Chad Janzen at (712) 476-2701.

THE EVERY STUDENT SUCCEEDS ACT (ESSA) PARENTS'/GUARDIANS' RIGHTS NOTIFICATION:

Parents/Guardians in the Rock Valley Community School District have the right to learn about the following qualifications of their child's teacher: state licensure requirements for the grade level and content areas taught, the current licensing status of your child's teacher, and baccalaureate/graduate certification/degree. You may also request the qualifications of an instructional paraprofessional who serves your student in a Title I program or if your school operates a school wide Title I program. Parents/Guardians may request this information from the Office of Superintendent by calling 712 476-2701 or by sending a letter of request to the Office of the Superintendent, 1712 20th Avenue, Rock Valley, IA 51247.

The Rock Valley Community School District ensures that parents will be notified in writing if their child has been served by a teacher who has not met applicable state certification or licensure requirements at the grade level and subject area in which the teacher has been assigned.
