

607.2 STUDENT HEALTH SERVICES

Health services are an integral part of comprehensive school improvement, assisting all students to increase learning, achievement, and performance. Health services coordinate and support existing programs to assist each student in achievement of an optimal state of physical, mental and social well being. Student health services ensure continuity and create linkages between school, home, and community service providers. The school district's comprehensive school improvement plan, needs, and resources determine the linkages.

The superintendent, in conjunction with the (school nurse, health advisory committee, public health nurse, school health team, etc.) will develop administrative regulations implementing this policy. The superintendent will provide a written report on the role of health services in the education program to the board annually.

607.2R1 STUDENT HEALTH SERVICES REGULATION

Student Health Services

Each school building may develop a customized student health services program within comprehensive school improvement based on its unique needs and resources. Scientific advances, laws, and school improvement necessitate supports to students with health needs to receive their education program.

Supports to improve student achievement include:

- qualified health personnel
- school superintendent, school nurse, and school health team working collaboratively
- family and community involvement
- optimal student health services program with commitment to its continuing improvement

Components provided within a coordinated school health program include:

- health services
- health education
- nutrition
- physical education and activity
- healthy, safe environment
- counseling, psychological, and social services
- staff wellness
- family and community involvement

Student health services are provided to identify health needs; facilitate access to health care; provide for health needs related to educational achievement; promote health, well-being, and safety; and plan and develop the health services program.

Student Health Services Essential Functions

A. Identify student health needs:

1. Provide individual initial and annual health assessments
2. Provide needed health screenings
3. Maintain and update confidential health records
4. Communicate (written, oral, electronic) health needs as consistent with confidentiality laws

B. Facilitate student access to physical and mental health services:

1. Link students to community resources and monitor follow through
2. Promote increased access and referral to primary health care financial resources such as Medicaid, HAWK-I, social security, and community health clinics
3. Encourage appropriate use of health care

C. Provide for student health needs related to educational achievement:

1. Manage chronic and acute illnesses
2. Provide special health procedures and medication including delegation, training, and supervision of qualified designated school personnel
3. Develop, implement, evaluate, and revise individual health plans (IHPs) for all students with special health needs according to mandates in the Individuals with Disabilities Education Act (IDEA), Rehabilitation Act (Section 504), and American with Disabilities Act (ADA)
4. Provide urgent and emergency care for individual and group illness and injury
5. Prevent and control communicable disease and monitor immunizations

6. Promote optimal mental health
 7. Promote a safe school facility and a safe school environment
 8. Participate in and attend team meetings as a team member and health consultant
- D. Promote student health, well-being, and safety to foster healthy living:
1. Provide developmentally appropriate health education and health counseling for individuals and groups
 2. Encourage injury and disease prevention practices
 3. Promote personal and public health practices
 4. Provide health promotion and injury and disease prevention education
- E. Plan and develop the student health services program collaboratively with the superintendent, school nurse, and school health team:
1. Gather and interpret data to evaluate needs and performance
 2. Establish health advisory council and school health team
 3. Develop health procedures and guidelines
 4. Collaborate with staff, families, and community
 5. Maintain and update confidential student school health records
 6. Coordinate program with all school health components
 7. Coordinate with school improvement
 8. Evaluate and revise the health service program to meet changing needs
 9. Organize scheduling and direct health services staff
 10. Develop student health services annual status report
 11. Coordinate information and program delivery within the school and between school and major constituents
 12. Provide health services by qualified health professionals to effectively deliver services, including multiple levels of school health expertise such as registered nurses, physicians, and advanced registered nurse practitioners
 13. Provide for professional development for school health services staff

Expanded Health Services

These additional health services address learning barriers and the lack of access to health care. Examples include school-based services in the school, school-linked services connected to the school, primary care, mental health, substance abuse, and dental health.
